## Retractable Banner Stand

### Frameless, Height Adjustable Banner Stand Shows No Hardware

#### Our **Patented** Features and Innovations:

Patent number: 200620047998.1 / 200620047999.6

US and European patent pending.

- The first "**FRAMELESS**" graphic image in a retractable banner. The viewer sees only the graphic message - not the support hardware.
- Precision-engineered retraction system provides smoother, more reliable graphic rolling and tensioning. Tension level is easily justified and reset by end user.
- Best of all, changeable graphics, **EFFORTLESS!**
- Combine two or three Alligator banner stands side by side to create an economical backwall.

#### **Includes:**

- Aluminum base.
- One telescopic pole.
- One snap-lock top hanger.
- A cushioned fabric hard bag with thick padding at both ends, providing strong protection on transportation handling.
- Single cardboard box.

## Retractable Banner Stand --- Alligator

Elegant design and rigorous engineering means sturdy display characteristics with the accent on the graphics, not the frame.

Easy to change the graphic by opening up the lid and taking out the roller. No tool is required.

Precision-engineered retraction system. Tension level can be justified and reset via a cap, which can also be used to protect the roller from losing tension in the transportation while being shipped separately to the end user.

Super thin Velcro attached on the roller for the purpose of easy graphic application and change.

Magnets installed at both ends of the top rail connect with the other units to build up a mural wall.

## Retractable Banner Stand --- Alligator

Top pole cap designed in the bridge shape. It keeps certain distance between the pole and the graphic, and eliminates the pole shadow on the graphic.

50w low-voltage halogen 60 degree flood lamps with UL/CE listed transformer from 120V(American)/240V(European) to 12V

The Alligator family offers adjustable height for maximum display adaptability.

Multiple units can be connected to create a concave mural wall.
