Chrono 2 Double Face

Cymaisa

**Chrono 2 Expo and Chrono 2 Cymaisa Displays.**

The Chrono 2 Expo is a black carbon display available in range of height and width formats in double sided and single-sided models. Mix and match different header and footer widths to create customized banner design. Lightweight, sets up in minutes and ships easily. The Chrono 2 Cymaisa display is a streamlined, lightweight and more upscale alternative to a tripod for tradeshows, museums or corporate office building lobbies. It holds graphics up to 3 pounds.

**Suggested print media:**

Printable Eclipse™ or EarthSmart™ Eclipse

**Expolinc® 4 Screen**

The 4 Screen is a cost efficient way of raising your message in large scale. Perfect for events and large campaigns when you have to consider price and the time it takes to put up the message. Assembly is easy, simply click on the stabilizing foot at the bottom and the supporting rod above. Finished! The 4 Screen has maximum image area thanks to the slimmed profiles. Available in a variety of sizes.

### The AutoScroller™.

Once the AutoScroller™ commands the eye of the passerby, it delivers twice the content in the same space as a static stand. The AutoScroller™ rotates a continuous 160" (4064mm) graphic using an electric motor concealed in the base. Display measures 33-1/2" wide (850mm) by 78" (1981mm) tall and comes with a nylon carrying bag. 12V motor uses standard 110 V AC power and is guaranteed for 480 hours of continuous use. Not compatible for use with a display light.

**Quad Tower**

The Quad Tower is just that, a tower so your message is seen in every direction with the impact it deserves. And this is not a static tower. The height is adjustable via a telescoping center pole, so you can custom fit your graphics as needed. Assembly is easy with no tools required. When the quick set up is complete you have a sturdy display that's easy on your eyes and your budget. Assembled unit measures 30-1/4" by 30-1/4" by 64-3/4" to 105-1/4" maximum height. (76.8cm x 76.8cm x 164.5cm to 267.3cm).

**Pop-Up Classic**

The Pop Up Classic offers the visual credibility and stability of a high-priced system at a fraction of the cost. Its expanding aluminum frame sets up in minutes without the need of tools. Installing your printed graphic panels is easy, simply hang them on the slotted headers. It's impossible to mis-align your graphics. Pop Up Classic comes with a rugged and rollable transport case, so getting to the set up point is easy. Assembled unit measures 88" x 100" (2.24 m x 2.54 m).

**Pop-Up Tower**

Have you ever seen anything like it? Chances are your audience hasn't and that's what will get them to look at your message. The Pop Up Tower makes an ideal kiosk and attention-grabber for point-of-purchase displays. The system's engineered aluminum frame pops up in seconds and secures with a simple locking hub. Optional halogen lights make this unique exhibit even more eye-catching. Assembled unit measures 87-1/2" x 25-5/16" (222.4 cm x 64.3 cm).

**Roll Up Classic**

Load new graphics in a snap with the Roll-Up retractable banner stand. Roll-Up's genius is its simplicity. An innovative hinged lid on the base makes changing graphics easy. Open the base and open your world to a display system that is now 20% lighter and comes with a black or silver finish. We've softened the contours and lowered the base profile for a sleeker appearance that does not distract the viewer.
