

Polar®

Chrome

Polar® Chrome is a 2 mil (50µ) printable satin silver PET film with a clear permanent acrylic adhesive. Its reflective satin finish brings a sleek, modern look to graphics, making it ideal for high-impact indoor outdoor use. Perfect for signage, billboards, POS displays, transit advertising, and exhibitions, Polar® Chrome ensures your message shines with clarity and style.

As a PVC-free solution, Polar® Chrome supports more environmentally conscious graphics production without compromising on performance or visual appeal. Its polyester base offers excellent dimensional stability, making it a smart choice for brands and print providers looking to reduce their environmental footprint.

Polar®

Chrome

Polar® Chrome is a 2 mil (50µ) premium, silver satin PET film with a clear permanent acrylic adhesive that is protected by a 90# 2 side PE coated, 1 side siliconized white kraft release liner. This bold reflective media serves as an excellent PVC-free choice to create engaging displays and signage.

Polar® Chrome provides a superb printing surface for eye-catching color graphics, interior or exterior. Its metallic finish enhances printed colors with a striking depth and vibrancy, making it ideal for high-impact retail displays, window graphics, and promotional signage. Durable and easy to work with, Polar® Chrome delivers long-lasting results that combine visual appeal with environmental responsibility
