

ViziPrint®

Select Clear P

ViziPrint® Select Clear P is a premium optically clear printable polyester (PET) film engineered for high-impact window graphics and surface applications where clarity matters most. Featuring a 4.6 mil (115µ) gloss PET face film and an optically clear permanent adhesive, it delivers sharp image quality, strong visual depth, and a clean, professional finish on glass and other smooth, flat substrates.

Designed for dependable performance indoors and out, ViziPrint® Select Clear P offers excellent print compatibility with latex/resin, and UV technologies, along with easy application and a permanent adhesive for reliable, long-term display graphics. With long-term interior durability and short-term exterior performance, it is ideal for retail window graphics, decals, displays, and interior décor applications across retail and hospitality environments.

ViziPrint®

Select Clear P

ViziPrint® Select Clear P is an optically clear PET film with an optically clear permanent adhesive, protected by a clear polyester release liner. Engineered for high-quality window graphics and display applications, it delivers outstanding visual clarity, reliable adhesion, and smooth application across a wide service temperature range. The film features a clear permanent adhesive that provides strong, reliable adhesion, making it ideal for retail displays, décor applications, and long-term branding graphics.

● OPTICALLY CLEAR FILM

Engineered with a gloss PET face film and optically clear solvent-acrylic removable adhesive, ViziPrint Select Clear P delivers exceptional image clarity and a clean, high-end appearance on glass and other smooth surfaces.

● ECO-CONSCIOUS AND PVC-FREE

Made from polyester, this film offers a sustainable alternative to traditional PVC graphics media—ideal for environmentally focused projects.
